The best way to stop unwanted calls, is to know who’s at the other end of the phone before you decide if you want to take it.

**You need Caller Display**
This will help you get the most out of your BT Call Guardian. You can get this from your phone service provider.

**Your BT8500 has four Guardian modes that allow you to easily manage calls in different ways:**

- **Announce** (All calls not in your Contacts, Allow or VIP list must say their name, those on your Blocked list hear, “Calls to this number are being screened by BT Call Guardian, the person you are calling is not accepting your call. Please hang up”)
- **International** (All calls from International numbers must announce their name. All other calls, except those on your blocked list hear the message above and all other calls come straight through)
- **Ans Phone** (All calls not in your Contacts, Allowed or VIP list are sent straight to the Answer Phone including those on your Blocked list)
- **Custom** (You choose how you’d like to handle all of your calls)

In **Announce mode** (default setting), the BT8500 will filter all first time calls from numbers that are not yet saved in your Contacts, or already on your allowed list. By doing this, you gradually build up these lists and your phone will know how to deal with the call the next time it comes in.
Record your announce message

You can personalise the BT Call Guardian greeting, by adding your name to the Announce message.

1. Select Menu, scroll to Call Control and press Select or OK.
2. Follow the instructions to set your PIN or enter your PIN and select OK.
3. BT Call Guardian is highlighted, press Select or OK.
4. Scroll to Announce msg, press Select or OK.
5. Press Select, or OK, on Record name and follow the voice prompt and press Save.
6. If you are happy with your recording, press OK.

How do you accept, block or send a call to the answer phone?

1. BT Call Guardian answers a call for you and asks the caller to say (“announce”) who they are.
2. Your BT8500 then rings you with the Announced call on the display and announces the caller’s name when you pick up the phone. (e.g. “You have a call from Mark”).
3. You now have the following choices:
   • To accept the call, press 1
   • To always accept their calls, press 2
   • To block their calls, press 3
   • To send this call to the answer phone, press 4
   • Or to ignore the call, just hang up (this call will then be sent straight to the answer phone)
Remember: when a call starts ringing, you can block it straight away by pressing Block on the screen. That number will then be added to your blocked list.

How do I change the different BT Call Guardian modes?
You can change the default setting of Announce mode, to International, Answer phone or Custom:
1. Select Menu, scroll to Call Control and press Select or OK.
2. Follow the instructions to set your PIN or enter your PIN and select OK.
3. BT Call Guardian is highlighted, press Select or OK.
4. Scroll to Guardian mode and then use the or to select the one that you want to change (e.g. International) and press Save.

Once you get used to your phone, you might decide to customise your settings further. For example, you can choose announce, block, allow or answer phone for any of these types of calls: unknown numbers, international calls, withheld numbers, payphones, mobiles and CLI unavailable numbers. (CLI means caller line identification.)

Remember: settings will be the same as the last mode you selected, unless you save your own custom options.

- When you get an allowed call, you’ll see the caller’s number (if available) with the call type below it on your phone’s screen.
- If you don’t answer a call from an allowed number, it will go through to your answer phone (if it’s on) or eventually it will hang up if unanswered.

**Remember**: if you’ve allowed a contact, all the numbers you have for a contact will also be allowed.

**What happens to my VIP numbers?**

These are always allowed to come through to you. If you want BT Call Guardian to look after any of these numbers, you’ll need to remove them from your VIP list and then adjust your BT Call Guardian settings for that number.
What happens when you block a number (caller)

• You’ll see the caller’s number (if available) in the Calls list with [Blocked call icon]. This means that BT Call Guardian is blocking the call without you having to do anything.

💡 Remember: if you’ve blocked a contact, all the numbers you have for a contact will also be blocked.
