Block Nuisance Calls

Quick Set-up and User Guide

BT1200 Digital Cordless Phone
**Important – please read first**

- Only use the line cord, power supply (item code: 066773) and rechargeable batteries supplied with your phone.

- Make sure that the power supply is connected to a known working socket.

- Connect your phone to the power supply and allow the batteries to charge for 16 hours before connecting the line cord to your telephone socket.

- To make sure you get the best range and reception from your handset, avoid interference by placing the base unit away from large metal objects such as fridge freezers and microwave ovens or electronic products such as computers and TVs.

If you need some help, call us on **0800 218 2182** or go to [bt.com/producthelp](http://bt.com/producthelp)
Check box contents

IMPORTANT
Only use the mains power adaptors, cables and rechargeable batteries supplied in this box, or this product may not work. Any replacement rechargeable batteries must be of the same type. BT accepts no responsibility for damage caused to your BT1200 by using any other type of batteries.

Contents for each additional handset (multipacks only)

If you need some help, call us on 0800 218 2182* or go to bt.com/producthelp
Quick set-up guide

Where to put your phone

- Place the base within 3 metres of a mains power socket and 1.8 metres of a phone socket so the cables will reach.
- Don’t place the phone or base in a bathroom or other humid area.
- The product works by sending radio signals between the handset and base. The strength of the signal depends on where you position the base. Putting it as high as possible can help give you the best signal.

IMPORTANT

- The base station should be plugged into the mains power socket all the time.

1 Plug in

1. Plug the mains power adaptor into the base, with the cable clipped in the groove provided.

2. Plug the other end of the power adaptor into the wall power socket and switch on.

3. The telephone line cord is already fitted, plug the other end into the wall socket.

If you need some help, call us on 0800 218 2182* or go to bt.com/producthelp
Activate the batteries

1. Activate the batteries by pulling the plastic tab away from the back of the handset.

2. The handset will check for a link with the base station. Once found, the screen will show the handset name i.e. HANDSET 1.

   Press the Left option button on the handset to set up date and time. You can press the Right option button to skip any further options until setup is complete (you can always set these up later).

Talk/Standby time
Under ideal conditions, the handset batteries should give up to 10 hours talk time or 100 hours standby on a single charge.

Please note that new Ni-MH rechargeable batteries don’t reach full capacity until they’ve been in normal use for several days.

Battery low warning
The icon will flash, you’ll hear a warning beep every minute, to indicate that you need to recharge your handset before you can use it.

If the battery charge completely runs out, you must recharge the handset batteries before you can use the handset. Place the handset on the base or charger to charge.

When a handset is charging from a low charge, the display shows four characters scrolling in a circle on the bottom line of display.
Quick set-up guide

Battery performance

- To keep the batteries in the best condition, leave the handset off the base for a few hours at a time.
- Running the batteries right down at least once a week will help them last as long as possible.
- After charging your handset for the first time, subsequent charging time for the batteries is approximately 8 hours.
- The charge capacity of rechargeable batteries will go down over time, which will reduce the talk and standby time. Eventually they’ll need replacing. For details on how to get replacement batteries, call the helpline on 0800 218 2182*.

3. Once set-up is complete your handset will display the handset name, place the handset on the base to charge.

4. After 16 hours, plug the phone line cord into the phone wall socket.

⚠️ IMPORTANT
Charge the handset batteries for 16 hours or your phone might not work.
Set up your additional handsets (multipacks only)

1. For additional handsets and chargers: plug the mains power adaptor into the underside of the charger and plug the other end into the mains wall socket and switch on the power.

2. Activate the batteries as explained on page 5.

3. Place the handset on the charger to charge for 16 hours.

If you ever need to remove the batteries, slide open the battery compartment cover then gently ease the batteries out.

Using your BT1200 on a line with broadband?
To avoid problems with your broadband or noise on your phone line, you might need to plug your telephone line cord into the wall socket via a microfilter (not supplied).

If your main phone socket has a single socket, you do need to use microfilters, like this:

You’ll need a microfilter for every phone socket where you’ve got equipment plugged in – up to a maximum of four per line – including alarm systems and digital TV boxes.

You can get BT ADSL micro filters from bt.com/shop

You don’t need to use microfilters if your main phone socket has two separate sockets, like these:

If you need some help, call us on 0800 218 2182* or go to bt.com/producthelp
Go!

Your BT1200 is now ready for you to use

- For help setting the date and time, go to page 37.
- For instructions on making a call, go to page 19.
- For help personalising your phone’s settings, go to page 32.

Or, you may find the answer in the Help section on page 42 or see our online frequently asked questions at bt.com/producthelp

Alternatively, call the Helpline on 0800 218 2182*.

* Calls made from within the UK mainland network are free. Mobile and international call costs may vary.

Finding your way around your phone

Your BT1200 has an easy to use menu system.
Each menu has a list of options, which you can see on the menu map on the next page.

**When the handset is switched on and at the home screen:**

1. Select **Menu** by pressing the Left option button \(\text{Menu}^{\checkmark}\) to open the main menu.
2. Use the \(\text{Calls}^{\uparrow}\) or \(\text{Redial}^{\downarrow}\) button to scroll through the available menu options.
3. When the menu you want is displayed, press the Left option button \(\text{Menu}^{\checkmark}\).
4. Use the \(\text{Calls}^{\uparrow}\) or \(\text{Redial}^{\downarrow}\) button to scroll through the available sub menu options.
   When the sub menu you want is displayed, press the Left option button \(\text{Menu}^{\checkmark}\).

Select **Back** by pressing the Right option button \(\text{Mute}^{\xmark}\).

To exit a menu and return to the home screen, press \(\text{Home}^{\text{Power}}\).

If no buttons are pressed for 30 seconds, the handset returns to the home screen automatically.

Base

In use / Charging light
Blue light is on and flashes when phone rings or the handset is in use.

Find
Press to ring all registered handsets, helpful for finding a missing handset, see page 22.
Also used during the registration process, see page 39.
Using the phone

Make an external call
1. Press green 📲.
2. When you hear the dial tone, enter the number.

Preparatory dialling
1. Enter the number first. If you make a mistake select Del. by pressing the Right option button 🕦 to delete the last digit.
2. Press 📲 to dial.

End a call
1. Press red 📱.

Call timer
Your handset will automatically time your outgoing and incoming calls. The handset shows the length of time both during and for a few seconds after your call.

When dialling a number, * is displayed as 1 and # is displayed as 1.

Auto end
By default you can end a call just by putting the handset back in the base.

If you switch the phone off and on again, the phone will need to be charged for some time, before the true charge status can be recalculated by the phone and accurately displayed.

To switch the handset off
1. Press and hold 📱 until the handset turns off.

To switch the handset on
1. Press and hold 📱 until the handset turns on.

If you need some help, call us on 0800 218 2182* or go to bt.com/producthelp
Using the phone

Auto answer
By default, auto answer is set to On, so you can answer a call just by lifting the handset off the base.

If auto answer is set to Off, you’ll need to lift the handset off the base and press \( \text{call} \) too. See page 34.

Out of range warning
When the handset is out of range of the base, the display will show OUT OF RANGE, you will hear a warning tone. You need to move back within range of the base station.

If you move out of range when you’re on a call, you’ll lose your connection. The handset will automatically re-connect to the base when you move back within range.

Receive a call
When you receive a call, the phone rings and the display shows CALL and \( \text{call} \). If you’ve got a caller display service, the display shows the caller’s number if it’s available or the caller’s name if it matches an entry stored in your contacts list.

1. Lift the handset from the base or charger to accept the call. If the handset isn’t on the base or charger, you’ll need to press green \( \text{call} \).

Call Waiting
If you’ve got a call waiting service and it is switched on, your phone will alert you to a second incoming call if you’re already engaged on an external call.

1. You’ll hear the call waiting tone and if you also have caller display the display will show the number of the caller, or the name if it matches an entry in your contacts.

2. Press \( \text{call} \) to answer the new call. Your first caller is put on hold.

3. Press \( \text{call} \) to toggle between the two callers.

4. Press \( \text{call} \) to hang up the current call.

5. If you hang up a current call, your phone will ring back to reconnect you to your original call if that caller is still connected.

If you need some help, call us on 0800 218 2182* or go to bt.com/producthelp
**Mute**

1. During a call, press Mute. The display shows SECRECY ON and your caller can’t hear you.
2. Press Mute to return to your caller.

**Incoming speech volume**

1. Press Call or Redial to increase or decrease the volume. The first press will present the Call volume screen so you can see the current volume level. Subsequent presses will change the volume, you will hear the volume level with each press.

**Redial**

Telephone numbers that you have called are saved in the Redial list. The Redial list holds up to 20 outgoing calls.

1. To redial a number, press Redial.
2. Then press Call or Redial to scroll to the entry you want and press to dial the number.

If you need some help, call us on 0800 218 2182* or go to bt.com/producthelp
Using the phone

Voicemail (BT 1571)
1. If you have subscribed to BT Answer 1571 you can press and hold 1 to listen to your messages.

Turn the handset ringer on or off
1. Press and hold * for 2 seconds to turn the handset ringer on or off. The display will briefly show RINGER ON or RINGER OFF before reverting to the home screen with the RINGER icon displayed if the ringer is off.

Find handset (Paging)
You can ring a handset to help find it.
1. Press find on the base. All handsets registered to the base will ring and the screen will show PAGING.
2. To stop the ringing, press find on the base again or press phone on any handset.

If you need some help, call us on 0800 218 2182* or go to bt.com/producthelp
Phonebook

You can store up to 50 names and numbers in your list of phonebook. Names can be up to 12 characters and numbers up to 24 digits.

**Store entry in phonebook (up to 50)**

1. In idle mode, press ☎. EMPTY is displayed if there are no numbers.
2. Press Menu to select ADD. Enter name using keypad and press Menu.
3. Enter phone number and press Menu to save.
4. Press Redial to select ring melody, then Menu to save.

To save a number to your phonebook from the incoming Calls list, press Calls, then scroll to the entry you want and press Menu. Scroll to ADD TO PB (phonebook) and press Menu. Enter a name using the keypad and press Menu. Then follow steps 3 to 4 above.

If you have more than one handset registered to the base, your contacts are automatically updated to all handsets (up to 6 handsets).

**Dial entry in phonebook**

1. In idle mode, press ☎.
2. Scroll Calls or Redial to display the entry and press ☎ to dial.

**Entering names**

Use the keypad letters to enter names, e.g. to store Tom: Press 8 once to enter T. Press 6 three times to enter o. Press 6 once to enter m.

**Writing tips**

To delete the last digit/character entered, select Del. by pressing the Mute button.

Press 1 to insert a space.

**To enter a pause in a phonebook number**

When storing a number, press and hold 0 in the place where you want the pause.

**To enter a recall in a phonebook number**

When storing a number, press and hold R in the place where you want the recall.

If you need some help, call us on 0800 218 2182* or go to bt.com/producthelp

View/dial entry in phonebook

1. From the home screen, press 📞. The first entry will be displayed.
2. Press ⬇️ or ⬆️ to scroll through and view the entries.
3. To dial an entry, press 📞 when the entry is displayed.

Searching alphabetically
Press the relevant keypad button, e.g. to search for a contact beginning with S, press 7 four times, then scroll ⬇️ through the entries.

If you need some help, call us on 0800 218 2182* or go to bt.com/producthelp
Edit entry in phonebook
1. From the home screen, press ☎️.
2. Press 🔄 or ☎️ to scroll to the entry you want to edit and select by pressing Left option ✔.
3. Press 🔄 to display EDIT and press ✔.
4. Edit the name using ✕ to delete characters and use the keypad to enter new ones, then press ✔.
5. Edit the number using ✕ to delete numbers and use the keypad to enter new ones, then press ✔.
6. Press 🔄 to select ring melody, then ✔ to save.

Delete entry in phonebook
1. From the home screen, press ☎️.
2. Press 🔄 or ☎️ to scroll to the entry you want to delete and select by pressing ✔.
3. Press 🔄 until DELETE is displayed and press ✔.
   You will hear a confirmation tone.
Delete all entries in phonebook

1. From the home screen, press 📞. The first entry will be displayed. Select by pressing 🔄.
2. Press 🔄 until DELETE ALL is displayed and press 🔄.
3. CONFIRM? is displayed, press 🔄 to confirm delete all. The display will show EMPTY and you will hear a confirmation tone.

View the phonebook memory status

1. From the home screen, press 📞. The first entry will be displayed. Select by pressing 🔄.
2. Press 🔄 until PB STATUS is displayed and press 🔄.
3. The display will show the total number of contacts stored and the total amount of contacts that can be stored, e.g. 05/50 USED.
Call Blocking

**Block incoming call number in your Calls list†**

1. Press *Calls*, scroll to the entry and press *Menu*. DETAILS is displayed.
2. Scroll to **ADD TO BLIST** (blacklist) and press *Menu*.
3. Enter name using keypad, press *Menu*. The number is displayed, press *Menu* to save. You will hear a confirmation tone.

**Turn call blocking on to enable blacklist**

1. Press *Menu*, **CALL BLOCKER** is displayed, press *Menu*.
2. Scroll to **SETTINGS**, press *Menu*.
3. Scroll to **BLOCK MODE** and press *Menu*.
5. Scroll to **ALWAYS ON**, press *Menu*. The icon is displayed.

† Requires a subscription to a Caller Display service from your network provider. Charges may apply.

Note, the same phone number can’t be saved in the blacklist and phonebook.

If you need some help, call us on **0800 218 2182** or go to bt.com/producthelp
Add, view, edit or delete a number in your blacklist

1. Press Menu, CALL BLOCKER is displayed, press Menu.
2. Scroll Redial to BLACK LIST, press Menu.
3. Scroll Calls or Redial to number you want to view, edit or delete in your blacklist. Or go to step 4 to add a number to your blacklist.
4. Press Menu, and scroll Calls or Redial to ADD, VIEW, EDIT, DELETE or DELETE ALL and press Menu.
5. Follow the on-screen instructions.

Block incoming call by call type†

1. Press Menu, CALL BLOCKER is displayed, press Menu.
2. Scroll to SETTINGS, press Menu.
4. Scroll to the call type you want to block – WITHHELD, INTERNAT’L, UNAVAILABLE or PAYPHONE – and press Menu. You’ll hear a confirmation tone.
Caller Display and the Calls list

**Caller Display**
If you’ve subscribed to a Caller Display service, you’ll be able to see your caller’s number on your handset display (provided it’s not withheld) before you answer a call. If your caller’s name is stored in your contacts list and it matches the number calling, you’ll see the caller’s name on the display instead. If you haven’t subscribed to a Caller Display service, incoming call will be displayed when you receive a call.

**Calls list**
The Calls list holds up to 20 incoming (missed and answered) calls. The date and time of the call is also stored. If you haven’t subscribed to a Caller Display service, no number will be displayed for incoming calls.

Calls are listed in chronological order with the most recently received/made call at the top of the list. When the list is full and a new call is received/made, the oldest entry will be deleted automatically. The Calls list can hold numbers up to 24 digits and names up to 12 characters.

You’ll need to subscribe to your network provider’s Caller Display service for this feature to work. You might have to pay a fee. For more information on BT Calling Features, go to bt.com/callingfeatures

For the caller’s name to be displayed, make sure you’ve stored the full telephone number in your contacts list, including the dialling code.

There are some incoming calls where a number is not displayed and a network message is recorded instead:

- **UNAVAILABLE** = number is unavailable
- **WITHHELD** = number has been withheld
- **INTERNATION** = international number
- **OPERATOR** = call from the operator
- **PAYPHONE** = call from a payphone
- **RINGBACK** = a ringback call
Caller Display and the Calls list

Calls list indicator

= missed call

Missed call notification

The number of missed calls will be shown e.g. 10 new calls. You can clear the notification by viewing the calls list on any handset registered to the base.

View/dial an entry in the Calls list

1. Press . The most recent entry is at the top of the list. (If there are no entries EMPTY will be displayed.
2. Press or to scroll through and view the list.
3. To dial an entry, when the entry you want is displayed, press .

Save a Calls list entry to your phonebook

1. Press , then press or to scroll to the entry you want and select by pressing .
2. Scroll to ADD TO PB, press .
3. Enter name using keypad and press .
4. Enter phone number and press to save.
5. Press to select ring melody, then to save.
6. If you have more than one handset registered to the base, they will be updated automatically.

If you need some help, call us on 0800 218 2182* or go to bt.com/producthelp
Delete an entry in the Calls list
1. Press Calls, then press Redial or Calls to scroll to the entry you want to delete and select by pressing Menu.
2. Press Redial until DELETE is displayed and press Menu. You will hear a confirmation tone.

Delete the entire Calls list
1. Press Calls, then display any entry and select by pressing the Menu button.
2. Press Redial until DELETE ALL is displayed, then press Menu. You will hear a confirmation tone.
Choose from 5 handset ringtones. The default external ringtone is Melody 1 and the internal ringtone is Melody 2.

There are 5 handset ringer volume levels plus Ringer Off. The default setting is Level 3.

If you turn the ringer off, the icon will be displayed on the home screen.

As a quick way to turn the handset ringer off, press and hold.

Handset settings

Set the handset ringtone for external or internal calls

1. Press , scroll to HS SETTINGS and press.
2. ALARM is displayed, scroll to RING SETUP, press.
3. EXT. RING is displayed, press.

   Or, press to display INT. RING and then press.
   The current ringtone will be played.

4. Press or to hear the different ringtones and press to save your choice, you will hear a confirmation tone.

Set the handset ringer volume

1. Press , scroll to HS SETTINGS and press.
2. Scroll to RING SETUP, press.
3. Press until RING VOLUME is displayed and press.

4. The current external ringtone will play at the current volume. Use the or button to increase or decrease the volume, or turn the ringer off. You will see the volume level change on the display or VOLUME OFF will be displayed if you turn the ringer off.

If you need some help, call us on 0800 218 2182* or go to bt.com/producthelp
5. Press \[Menu\] to save your choice, you will hear a confirmation tone.

**Turn the handset tones on or off**

1. Press \[Menu\], scroll \[Redial\] to HS SETTINGS and press \[Menu\].
2. ALARM is displayed. Press \[Redial\] until TONE SETUP is displayed and press \[Menu\].
3. KEY TONE is displayed, press \[Menu\] or press \[Redial\] to display BATTERY TONE or OUT OF RANGE TONE and then press \[Menu\].
4. Press \[Call\] or \[Redial\] to select ON or OFF then press \[Menu\] to save, you will hear a confirmation tone.

There are three handset tones: keypad tones, battery tones and out of range tones. You can turn these on or off, the default setting is On.

Keypad tones: when turned on, you will hear a beep after each button press.

To alert you that the battery needs charging, you will hear a low battery tone while you are on a call.

You will also hear a warning tone if the phone goes out of range.
34  Settings

A handset name can be a maximum of 12 characters.

The default setting for all call settings is On.
If Auto answer is set to On you can answer a call by lifting the handset off the base. If it’s set to Off, you’ll need to lift the handset off the base and then press ✆.

Choose from 5 base ringtones. The default base ringtone is Melody 1.

---

**Change the handset name**

1. Press Menu, scroll Redial to HS SETTINGS and press ✆.
2. ALARM is displayed, press Redial until RENAME HS is displayed and press ✆.
3. Edit the name by selecting Del. to delete the characters, then enter the new name and press ✆ to save. You will hear a confirmation tone.

**Change the call settings**

1. Press Menu, scroll Redial to HS SETTINGS and press ✆.
2. ALARM is displayed, press Redial until AUTO ANSWER is displayed and press ✆.
3. Press Calls or Redial to select ON or OFF then press ✆ to save, you will hear a confirmation tone.

**Base settings**

**Set the base ringtone**

1. Press Menu, scroll Redial to BS SETTINGS and press ✆.
2. BS RINGER is displayed, press ✆.
3. The current ringtone will be played at the base. Press Calls or Redial to hear the different ringtones and press Menu to save your choice. You will hear a confirmation tone.

---

If you need some help, call us on 0800 218 2182* or go to bt.com/producthelp
**Set the base ringer volume**

1. Press Menu, scroll Dial to BS SETTINGS and press Menu.
2. BS RINGER is displayed, press Dial until RING VOLUME is displayed and press Menu.
3. The current base ringtone will play at the current volume. Use the Calls or Dial button to increase or decrease the volume, or turn the ringer off. You will see the volume level change on the display.
4. Press Menu to save your choice. You will hear a confirmation tone.

**Set a PBX access code**

1. Press Menu, scroll Dial to BS SETTINGS and press Menu.
2. BS RINGER is displayed, press Dial until PBX ACCESS is displayed and press Menu.
3. Enter the number you want (maximum of 1 digit) and press Menu to save. You will hear a confirmation tone.

If you’re connected to a switchboard, you might need to enter an access code (e.g. 9) before each number is dialled. Your BT1200 can store an access code which is automatically dialled before each number.

If you wish to revert to not using a PBX access code, you need to go into the PBX code menu and delete all the digit by selecting Del., then press Menu to save.

There are 5 base ringer volume levels plus Ringer Off. The default setting is Level 3
The default system PIN is 0000. You can change this to your own preferred 4-digit code.

The system PIN is used when changing certain settings and for registration/de-registration.

If you make a mistake, select Del. to delete a digit.

If you reset the phone settings all the phone settings will return to their default settings, e.g. the handset name, ringer melody, all volume levels, display and alarm settings.

**Change the system PIN**

1. Press Menu, scroll to BS SETTINGS and press Menu.
2. BS RINGER is displayed, press Redial until CHANGE PIN is displayed and press Menu.
3. You will be prompted to enter the current 4 digit PIN, then press Menu.
4. Enter the new 4 digit PIN again and press Menu.
5. Enter the new 4 digit PIN again to confirm and press Menu. You will hear a confirmation tone.

**Reset the handset or base settings**

1. Press Menu, scroll to DEFAULT and press Menu.
2. PIN?---- is displayed, enter the 4 digit PIN and press Menu.
3. CONFIRM? is displayed, press Menu. You will hear a confirmation tone.
Clock/Alarm

If you didn’t set the time and date when you first set-up your phone then you will need to do so before you can set an alarm. The clock will also be displayed on the handset screen in idle mode.

**Set the time and date**
1. Press Menu, scroll Redial to HS SETTINGS and press Menu.
2. Scroll Redial until DATE & TIME is displayed and press Menu. SET TIME is displayed, press Menu.
3. Enter the time using the keypad. Press or Redial to toggle between A for AM or P for PM, and press Menu.
4. Enter the year using the keypad and press Menu.
5. Enter the date using the keypad and press Menu.
   You will hear a confirmation tone.

**Set an alarm**
1. Press Menu, scroll Redial to HS SETTINGS and press Menu.
2. ALARM is displayed, press Menu.
3. Press or Redial to turn the alarm ON (or OFF) and press Menu.
4. Enter the alarm time using the keypad. Press or Redial to toggle between A for AM or P for PM, and press Menu. SNOOZE is displayed, press Menu.

You must enter the full date: day, month and year.
The time is set in 12 hour format.
Press or Redial to toggle between ‘A’ for AM or ‘P’ for PM.
When you’ve set an alarm, the icon will appear on the idle screen to confirm an alarm has been set.

If an incoming call is received while the alarm is going off, the alarm notification will immediately stop and the incoming call will be shown on the display. The alarm will not resume.

5. Press † or ‡ to turn the snooze ON or OFF, press † to confirm your choice. You will hear a confirmation tone.

**Stopping the alarm when it goes off**

When the alarm goes off, the selected ring tone will play and **ALARM ON** will flash.

To stop the alarm, press any key.

If snooze function is activated, the alarm will sound again after seven minutes until you go into alarm settings and turn it off.
Using additional handsets

If you’ve bought a BT1200 multiple pack, any additional handsets come pre-registered to the base. However, if you purchase an additional handset separately, you must register it to your BT1200 base before it can be used.

Register an additional handset

1. Press and hold the button on the base for 5 seconds. The base is entered into registration mode. You will hear a confirmation tone.
2. Press , scroll to REGISTRATION and press .
3. Enter the 4 digit PIN and press . The default system PIN is 0000.
4. Once registration is successful the handset will show HANDSET X (with X being the next assigned handset number).

You can register up to five GAP compliant handsets to your BT1200 base to extend your phone system without needing to install telephone extension sockets for each new phone.

If a handset becomes un-registered it will need to be registered to the base again.

If registration isn’t successful the first time, please try again in case the base registration period ran out of time.

If there are already five handsets registered to the base, the registration will fail. You must de-register another handset before you can register the new one.
Using additional handsets

Registering another make of handset to your BT1200 base
If you want to register another make of handset (i.e. not a BT1200 handset) to your BT1200 base you will need to follow the Registration instructions that came with the handset first and then continue with the base part of the registration procedure.

Please note that registering other types of handset will only provide limited compatibility i.e. you may only be able to make and receive calls on the additional handset.

You can also choose All handsets if you want to call all handsets registered to the base. If a handset answers, the handset name will be displayed on your screen.

If an external call is received while an internal call is being made, the handsets registered to the base will display the external call information and you will hear the call waiting tone in the handset earpiece.

De-register a handset
1. Press Menu, scroll Redial to BS SETTINGs and press Menu.
2. Press Redial until DELETE HS is displayed and press Menu.
3. Enter 4 digit system PIN and press Menu.
4. Press Calls or Redial to display the handset you wish to de-register and press Menu. You will hear a confirmation tone.

Make an internal call between handsets
If you have more than one handset registered to the base, you can make internal calls between two handsets.

1. Press Mute and scroll Calls or Redial to registered handset you want to call.
2. Press Menu to call the selected handset.
3. Press to end the call.

Transfer a call
You can transfer an external call to another handset registered to the base.

1. During a call, press the Menu button, INTERCOM is displayed.
2. Press Menu and scroll Calls or Redial to handset you want
to transfer the call to, press \textbf{Menu} to establish internal call.

3. Press \textbf{ } to complete call transfer.

**Hold a 3-way call**

You can hold a 3-way call between 2 handsets, if you have more than 1 registered to your base and 1 external caller.

1. During a call, press the \textbf{Menu} button, \textbf{INTERCOM} is displayed.

2. Press \textbf{Menu} and scroll \textbf{Calls} or \textbf{Redial} to handset you want to transfer the call to, press \textbf{Menu} to establish internal call.

3. Press and hold \textbf{#} on the call handset to establish a conference call, \textbf{CONFERENCE} is displayed.

4. Both parties on conference call will need to press \textbf{ } to end the external call.
Help

Phone doesn’t work
• Have you activated the batteries correctly? See page 5.
• Check that the mains power is correctly connected.

No dial tone or line cord error message displayed on screen
• Is the telephone cord plugged into the base and phone wall socket?
• Check that the mains power is correctly connected.
• Only use the telephone cord supplied with the phone.

Can’t make or receive calls
• Check that the mains power is correctly connected.
• The batteries may need recharging.
• Has there been a power cut? If so, place the handset back on the base for ten seconds and try again. If it still doesn’t work, disconnect the batteries and mains power for ten minutes, then reconnect and try again.

You have a dial tone, but the phone won’t dial out
• If you’re connected to a switchboard, check whether you need to dial an access code, see page 35.

Handset doesn’t ring
• The ringer volume may be switched off, see page 32.
• Check that the mains power is correctly connected.
• Make sure the handset is registered to the base, see page 39.
**No display**
- The batteries may be flat, dead or incorrectly inserted.
- Recharge or replace the batteries.

**Range icon flashes**
- Make sure the handset is registered to the base, see page 39.
- Check that the mains power is correctly connected to the base.
- Check that the handset is within range of the base.
- If the batteries are low, place the handset on the base/charger to recharge.

**You hear the busy tone when you press**
- Make sure the handset is in range of the base.
- Another handset registered to your BT1200 base may be on the line.

**No Caller Display number/name displayed**
- Have you subscribed to a Caller Display service from your network provider? See page 29.
- The caller may have withheld their number.
- Network may not have the callers number information.
- An exact name/number match was not found in your contacts. Check that you’ve stored the full STD dialling code.
Can’t register a handset to a base
• You can register up to five handsets to your BT1200 base and you can register your BT1200 handset to up to four bases. Check that you’ve not exceeded the limits.
• Check that you’ve entered the correct system PIN number (default PIN 0000).
• Check that you’re at least one metre away from other electrical equipment to avoid interference when registering.

Base unit does not ring, but the lights are on
• Have you connected the telephone line correctly?
• Is the base ringer set to off?
• You may have a faulty line or socket. Try using another socket or line. If you are a BT customer then please call 0800 800 151 or your network provider if you still have problems.

Buzzing noise on my phone or on other electrical equipment nearby
• Sometimes other electrical equipment can interfere with your BT1200 if it’s placed too close. We recommend that you place your BT1200 at least one metre away from electrical appliances or metal obstructions to avoid any risk of interference.
Customer Helpline
If you’re still having problems, call us on 0800 218 2182* or go to bt.com/producthelp

General sales enquiries
- BT Residential lines – call 150. BT Business lines – call 152.
- For non BT line customers, call 0800 800 150 (residential) or 0800 800 152 (business).
- Additional handsets are available to purchase from the Helpdesk on 0800 218 2182*.

Billing enquiries
Please see the phone number shown on your BT bill.
General information

Important
This equipment is not designed for making emergency phone calls when the power fails. Alternative arrangements should be made for access to emergency services.

This product is intended for connection to analogue public switched telephone networks and private switchboards in the United Kingdom.

Replacing the handset batteries
After a time, you might find that the handset batteries run out of charge more quickly. This is a standard sign of wear and the batteries will need replacing.

1. Open the battery compartment cover.
2. Lift the battery out and remove the batteries.
   Replace with two new AAA Ni-MH 500mAh rechargeable batteries.
3. Replace the battery compartment cover.

Caution
Don’t immerse batteries in water, throw them into a fire or dispose of them with ordinary domestic refuse. BT accepts no responsibility for damage caused to your BT1200 by using any other types of batteries. There is a risk of explosion if incorrect batteries are fitted.

Safety information
- Only use the power supply suitable for the BT1200. Using an unauthorised power supply will invalidate your guarantee and may damage the phone. The item code for the base mains power supply is 066773.
- Use only the approved rechargeable batteries supplied. Spare rechargeable batteries are available from the BT1200 Helpline on 0800 218 2182*.
- Don’t open the handset (except to replace the handset batteries) or the base. This could expose you to high voltages or other risks. Contact the Helpline on 0800 218 2182* for all repairs.
- If the keypad is locked, it is still possible to make calls to 999 and 112 emergency numbers by dialling the number then pressing 📞.
- Radio signal transmitted between the handset and base may cause interference to hearing aids.
- It is recommended that advice from a qualified expert be sought before using this product in the vicinity of emergency/intensive care medical equipment.
- It is recommended that if you have a pacemaker fitted you check with a medical expert before using this product.
- Your product may interfere with other electrical equipment, e.g. TV and radio sets, clock/alarms and computers if placed too close.
- It is recommended that you place your product at least one metre away from such appliances to minimise any risk of interference.

If you need some help, call us on 0800 218 2182* or go to bt.com/producthelp
• Never dispose of batteries in a fire. There is a serious risk of explosion and/or the release of highly toxic chemicals.

Cleaning
• Clean the handset and base (or charger) with a damp (not wet) cloth, or an anti-static wipe. Never use household polish as this will damage the product. Never use a dry cloth as this may cause a static shock.

Environmental
• Do not expose to direct sunlight.
• The handset may become warm when the batteries are being charged or during prolonged periods of use. This is normal. However, we recommend that to avoid damage you do not place the product on any surface susceptible to heat damage.
• Do not stand your product on carpets or other surfaces which generate fibres, or place it in locations preventing the free flow of air over its surfaces.
• Do not submerge any part of your product in water and do not use it in damp or humid conditions, such as bathrooms.
• Do not expose your product to fire, explosive or other hazardous conditions.
• There is a slight chance your phone could be damaged by an electrical storm. We recommend that you unplug the power and telephone line cord during an electrical storm.

How to recycle your equipment
The symbol shown here and on the product means that the product is classed as electrical or electronic equipment, so DO NOT put it in your normal rubbish bin.

It’s all part of the Waste Electrical and Electronic Equipment (WEEE) Directive to recycle products in the best way – to be kinder to the planet, get rid of dangerous things more safely and bury less rubbish in the ground.

You should contact your retailer or supplier for advice on how to dispose of this product in an environmentally friendly way.

Warning
You won’t be able to call 999 from this phone if there’s a power cut, so make sure you’ve got another way to call for help in an emergency.

R&TTE Directive & Declaration of Conformity
This product is intended for use within the UK for connection to the public telephone network and compatible switchboards.

For a copy of the Declaration of Conformity please refer to bt.com/producthelp
Guarantee
Your BT1200 is guaranteed for 12 months from the date of purchase.

Subject to the terms listed below, the guarantee will provide for the repair of, or at BT’s or its agent’s discretion, the option to replace the BT1200 or any component thereof, (other than batteries), which is identified as faulty or below standard, or as a result of inferior workmanship or materials. Products over 28 days old from the date of purchase may be replaced with a refurbished or repaired product.

Guarantee conditions
• The guarantee shall only apply to defects that occur within the 12 month guarantee period.
• Proof of purchase is provided.
• The equipment is returned to BT or its agent as instructed.
• This guarantee doesn’t cover any faults or defects caused by accidents, misuse, fair wear and tear, neglect, tampering with the equipment, or any attempt at adjustment or repair other than through approved agents.
• This guarantee does not affect your statutory rights.

Within the 12 month guarantee period
Prior to returning your product, please read the Help section beginning on page 42 or contact the BT1200 Helpline on 0800 218 2182*. Additional answers to frequently asked questions are available from bt.com/producthelp

In the unlikely event of a defect occurring, the helpdesk will issue a Fault Reference Authorisation (FRA) number and instructions for replacement or repair. Please note you will need the FRA number before returning the product. This does not affect your statutory rights.

Outside of the 12 month guarantee period
If your product needs repair after the guarantee period has ended, the repair must meet the approval requirements for connection to the telephone network. We recommend that you contact BT’s recommended repair agent Discount Communications on 0800 980 8999 or a local qualified repairer.

Returning your phone
If the Helpline is unable to remedy your problem they will issue a Fault Reference Authorisation number and ask you to return the product to your original place of purchase. Where possible, pack the product in its original packaging. Please remember to include all parts, including the line cords, power supply units and the original batteries.
Technical information

How many telephones can I have?
All items of telephone equipment have a Ringer Equivalence Number (REN), which is used to calculate the number of items which may be connected to any one telephone line. Your BT1200 has a REN of 1. A total REN of 4 is allowed. If the total REN of 4 is exceeded, the telephones may not ring. With different telephone types there is no guarantee of ringing, even when the REN is less than 4.

Any additional handsets and chargers that you register have a REN of 0.

Connecting to a switchboard

Switchboard compatibility
This telephone may be connected to most types of switchboard, however in the event of any difficulties, consult your switchboard Service Provider.

Recall (R)
Recall is used when connected to certain switchboards/ PBXs and some BT Calling Features, or those services available via your network provider. The BT1200 supports time break recall but not earth loop recall.

R&TTE
This product is intended for use within the UK for connection to the public telephone network and compatible switchboards.

Declaration of Conformance
Hereby, BT declares that this BT1200 is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.

If you would like a copy of the Declaration of Conformance, please visit bt.com/producthelp
